

# PROPER GLOVE USE

## HOW TO WEAR GLOVES CORRECTLY

1

Wash hands thoroughly before putting on a new pair of gloves.

2

Always wear gloves to handle ready-to-eat foods (sandwiches, salads, meats, breads, or ice).

3

Use gloves that fit properly and that are best suited for the task.

4

Change gloves with each new activity (making sandwiches and then handling money) or when leaving work stations.

5

Change gloves after sneezing, coughing, touching hair or face, or touching any unclean surface.

6

Change gloves often – at least every 4 hours when working on the same task. Handle gloves by the cuff.
