

LIGHT BLUE NITRILE GLOVES

FoodHandler's oneSAFE® Light Blue Nitrile gloves provide a higher level of safety to any foodservice operation. Its ease of use can help significantly reduce the risk of cross-contamination, reduce waste, and decrease an operation's environmental footprint.

Pebble Texture

Textured fingertips enhance grip, improve dexterity and tactile performance.

Form Fitting and Comfortable

Form fitting and flexible for maximum fingertip sensitivity.

Latex Free & Safe

oneSAFE® nitrile gloves do not contain natural rubber latex, reducing the risk of latex proteins and allergens exposure to operators and employees.

Increased Efficiency

Highly visible, simple, and easy to access setup that can be installed wherever convenient for staff.

Single-Glove Dispensing System

The oneSAFE® design makes it easy to grab only one glove at a time. Because the system allows users to touch the glove only at the cuff, the glove's palm and fingers won't come into contact with the user's bare hands.

Reliable Protection

oneSAFE® nitrile gloves are comfortable and extremely durable. Nitrile gloves have better chemical resistance than latex and vinyl.
