

FoodHandler® BLUE VINYL/NITRILE BLEND GLOVES

Vinyl/Nitrile Blend Powder Free Gloves is Foodhandlers newest innovative product in the disposable gloves category. They are a light to mid-duty copolymer glove composed primarily of Vinyl with Nitrile blended in for performance advantages including ease of donning, improved dexterity, comfort, and elasticity.

Value Alternative to Nitrile

Vinyl/Nitrile is a great value option that will do the job in many applications where Nitrile gloves are used.

Upgrade to Standard Vinyl

Vinyl/Nitrile is a nice upgrade in dexterity and comfort for current Vinyl wearers with easier donning and improved elasticity due to its blend with Nitrile.

Offered in Blue

The color blue improves Food Safety and adds visibility to gloves in an operation during food preparation and other applications.

Reliable Latex Alternative

These gloves do not contain natural rubber latex, which is associated with latex allergies, and are also powder free.
