

BLACK NITRILE GLOVES

These strong, versatile, and comfortable JobSelect® Black Nitrile gloves are engineered for maximum multi-purpose performance. Combining the highest quality disposable glove characteristics, these gloves are outstanding for foodservice applications, handling cleaning agents, automotive materials, dyes, and general utility items.

Safe and Latex Free

Nitrile gloves eliminate the risks of latex protein exposure that can cause allergic reactions.

Popular Black Color

Black color makes this glove ideal for tasks that require handling sauces, oils, dyes, etc.

Excellent Strength

At nearly 3.5 Mills gauge, JobSelect® Black Nitrile is stronger, more durable, and more puncture resistant than standard nitrile gloves.

Pebble Texture

Pebbled surface enhances grip and improves dexterity and tactile performance.

Benefits of Nitrile

Nitrile is the best disposable glove material for resistance to acidic foods, such as sauces and many on the job chemicals.
